

Have You a Dead Piano?

If you have a dead, unused Piano in your home, why not put it to work? Why not enjoy the music that can be yours if you wish?

If you have gotten "out of practice," or if the children who once played are now in other homes, there is no reason for your Piano remaining idle or your home being denied the uplifting influence of good music.

The Pianola Piano Solves the Problem

It instantly enables you to personally and easily produce the best music possible by the great masters who have spent their lives in practice.

The Pianola Piano is a high-grade Piano with the world-famous Pianola built inside it. It alone of all player-pianos possesses the Thermo-disk or Metrostyle, two devices which enable any one to interpret music correctly—to bring out the different shades—to put the fire and feeling into a piece.

We Will Sell You a Pianola Piano On Easy Terms and Allow You a Generous Amount On Your Old Piano.

And bear in mind that only at our store can you purchase the Pianola Piano—world's best.
